

Newsletter

February 2022

Our most exciting update is the launch of our new & improved PRONA website:

<https://www.prona.info/>

NB: The website is best accessed from a home computer, as certain work servers have strong firewalls against unrecognized websites.

In case you missed our last member meeting, the December meeting minutes can be found [here](#).

- Committees continue to work on several projects and are happy to welcome new members interested in current and future endeavors.
 - We are actively seeking member contribution for kidney-friendly recipes to compile a pediatric renal cookbook. Please email your recipes to Esther and Isabel of the Patient Resource committee (see addresses to the right)
- We are accepting applications for [Pediatric Renal RD of the Year Award](#)
 - Click the link to see eligibility criteria
 - Applications close March 31, 2022

Upcoming Events

March 1, 2022 @ 1pm EST: Vitaflo webinar "Practical Considerations of a Plant-Based Diet in Pediatric Chronic Kidney Disease (CKD)"

March 31, 2022 @ 1pm MST:
PRONA member meeting
